

Hazel B. Gatdula

If there is one thing that Hazel will be most remembered for, it is that, in everything that she attempts, she gives 101%. It is not enough for her to meet the highest standard as a student, org leader, athlete and even as a friend. She goes above and beyond. It may just seem like a small number, but that extra 1% is comprised of stress, hectic schedules and a crazy but promising attitude. The extra 1% is what ensures that Hazel will reach greater heights when the future comes.

Andrea Janelle D. Go

MINOR IN SUSTAINABILITY

"It takes courage to endure the sharp pains of self-discovery rather than choosing to take the dull pains of unconsciousness that would last the rest of our lives." (M. Williamson)
