My 4321 story:

Four years here was no short of a roller coaster ride: from all nighters, oral exams and org projects. A thrilling journey that left me three things to bring: explore, learn and breath. A simple two part reminder: live in the present with the idea that the world holds so much more than we could ever know.

An unforgettable journey, an irreplaceable part of me, all leads to one thing: one dreamer. A dreamer that sees both the realities of this world and the potentials of an uncertain future.
