

Frances Gail D. Bagas

MINOR IN INFORMATION TECHNOLOGY

Four years are not enough, but I am still grateful for the friends I've made, the lessons I've learned, and the memories I've created. All of these I'll treasure and take with me as I go down the hill.

Andrew C. Bernardo

MINOR IN JAPANESE STUDIES

My journey in college ends, and now I walk towards the next stage of my life. Looking back on my time here, I can say that it was full of momentous events, both good and bad. For the good, I experienced the opportunity to go to Japan for STA, while for the bad, I went through multiple days of stress from tests and projects. All these experiences have shaped me, and I will look back on them fondly as I leave to enter the "real world".
