MINOR IN LITERATURE (ENGLISH)

I've never been an org person, but I chose to do what most would run away from—be an InTACT SF, join the SJC and be Chief, work behind the scenes in OrSem as a committee head, & organize history majors into a group. Despite all the work & drama, it was these tasks that organizations couldn't seem to provide for me. I looked for responsibility and an opportunity to serve others. It was all worth it. You can never run away from work. This is the Ateneo way, and I loved it. Ad Majorem Dei Gloriam!
