

Joanna Estelle A. Lara

My years in Ateneo were a period of discovery for me. Here, I discovered true friends, the world, and even myself. To everyone who has been part of my college life, from my friends to my professors, thank you for everything you have taught me. I am especially grateful to the family I have found in Youth for Christ-Ateneo. You have made me who I am today, and I love every single one of you. Because of all of you, I am ready to embrace the mystery of what life brings me next. See you there.
